CITY OF SAN FERNANDO Workers from the Department of Environment and Natural Resources (DENR) Region 3 participated in a recent solidarity walk and cleanup drive.

This is to show support and drumbeat the annual celebration of the Month of the Planet Earth.

The 80 participants collected over 30 sacks of residual and plastic waste from the streets, parks and waterways within the Diosdado Macapagal Government Center in City of San Fernando, Pampanga.

The waste was disposed of with the assistance of the local government unit of the said city.

DENR 3 Assistant Regional Director for Technical Services Joselito Blanco urged the people to take actions significant to environment protection.

April is the Month of Planet Earth by Proclamation No. 1482 series of 2008.

The month-long celebration reiterates the need to scale up efforts in protecting and saving the planet from environmental degradation to ensure a sustainable future for all people.

This year's theme, "Invest in our Planet," calls for partnerships and engagements among stakeholders including governments, businesses and ordinary citizens to do their part and invest more time, money and resources in saving the environment.
