Region 10													
Baungon	The LGU Baungon is not among the current GIZ partners on the ongoing RLGM project within region 10 (Northern Mindanao). However, it has been suggested by the PWMC to be included in this ongoing sub-project of RLGM, considering its strategic location within the Ecological System (i.e., the Cagayan de Oro River Basin, and the MKRNP).	The LGU of Baungon is a land-locked Municipality, has an area of about 32,834 ha, but not not fully within the headwaters of the Cagayan de Oro River Basin, because part of LGU Baungon is within the headwaters of Tagoloan River Basin situated in the northern portion of the said River Basin. About 17,832 ha (or about 54%) of LGU Baungon is classified as Forestland which is still covered with Natural Forest, and about 15,002 ha A and D area, within the altitudinal	The LGU of Baungon, Bukidnon has existing Environment and Natural Resources (ENR) Partnership Agreements (i.e., MOAs) with DENR, as follows: (a) It is partly within the Mr. Kitanglad Range Natural Park (MKRNP), and serving as institutional member of the Protected Area Management Board (PAMB). It has an existing Mandate through the PAMB EXECOM Resolution No. 161 series of 2001, providing financial assistance for the operation of the PAMB in the amount of P50,000. (b) In addition, the Provincial Government of Bukidnon has an existing MOA with the DENR for the provision of financial support to the 2019 PAMB operation, in the amount of P4,000,000.00. (c) Portion of the LGU Baungon's Forestlands outside the MKRNP is covered by DENR Administrative Order No. 2011-02 "Declaring a certain parcel of land located at sitio Kalangarangan, San Vicente, Baungon, Bukidnon as Critical Habitat for Rafflesia schadenbetgiana". Relative to this DAO, there is an existing joint MOA among DENR, DOT, LGU Baungon, Bgy Council, and the People's Organization KALASANIFA, in order to ensure that the existing ecosystems in the critical habitat are preserved and are kept in the condition that will support the perpetual existence of the Rafflesia schadenbetgiana and naturally occurring flora and fauna;	The FLUP formulation of LGU Baungon was initiated during the B-WISER Project. Currretny, the protection of the LGU's 5,500-ha of natural forest is carried-out through the implementation of the technology-aided Lawin Forest and Biodiversity Protection System (Lawin). Local communities, in collaboration with the DENR, will be mobilized for the implementation of Lawin. Forest Protection will be implemented in the MKRNP buffer zone, particularly, within Brgys. San Vicente, Mabuhay, Kalilangan, and Lacolac. Being part of its Comprehensive Land Use Plan (CLUP), the LGU Baungon has its Comprehensive Zoning Ordinance (Municipal Ordinance No. 2012-445). Most, if not all of the Forestlands of LGU Baungon along the foothills of Mt. Kitanglad, is covered by	(a) This LGU has a long experience of having collaborative efforts with the DENR and other LGUs, with both the domestic, as well as with the Foreign-Funded Projects within the Mt. Kitanglad Range Natural Park (MKRNP). Not all of the Forestlands of LGU Baungon fall within the MKRNP. (b) There some Ancestral Domains of the Higaonon Tribe within LGU Baungon, situated along the foothills of Mt. Kitanglad that are being processed by the NCIP for recognition.	Hon. Giovanni M. Dahino, Mayor of Baungon, Bukidnon Engr. Nadeth Caja, MPDC, LGU Baungon Ms. Cecil Egnar, BENRO of the Province of Bukidnon, Provincial Capitol, Malaybalay City For. Bgy Carmen, Baguio District, and Bgy Calinan, Calinan District	Davao City is a current GIZ partners in the ongoing RLGM project within region 11 (Davao region), particularly Bgy Carmen, Baguio District, and Bgy Calinan, Calinan District.	Davao City has a land area of 244,400 ha, the largest City in the Philippines in terms of land area. It has three (3) Congressional Districts and 11 Administrative Districts. Both the Calinan Administrative District (with an area of about 23,235 ha), and Baguio Administrative District (with an area of about 8,527 ha) are under the 3rd Congressional District. LGU Bgy Carmen (with an area of about 835 ha) is one (1) of eight (8) Bgys of Baguio Administrative District, while Bgy	Currently, the LGUs of Bgy Calinan, Calinan District, and Bgy Carmen, Baguio District, Davao City do not have any existing Environment and Natural Resources (ENR) Partnership Agreements (i.e., MOA) with DENR (as per DENR 11 CENRO for Davao City Technical Staff, Far. Carlito Lim). However, there are some portions that are covered by CBFMA and NGP. Both the NGP and CBFMA programs directly engage with the site-based PO/IPO. The current situation within the said Calinan and Baguio Districts is, as follows: (a) Portions of Bgy Carmen, Baguio District, and the Rural Bgys of Calinan District, are part of a 33,713-ha Obu-Manuvu Ancestral Domain covering 15 Bgys within Davao City and Arakan, North Cotabato (i.e., 13 Bgys in Davao City side and 2 Bgys in Arakan, North Cotabato), and (b) Particularly, about 47% (or about 8,857 ha) of Baguio District is within the Certificate of Ancestral Domain Title (CADT) of the Obu-Manuvu Tribe, with Datu Joel Onad as the Tribal Chieftain, with his office based in Brgy. Carmen, Baguio District, Davao City.	About 8,857 ha of Baguio District is within the Ancestral Domain of the Obu Manuvu Tribe. The Obu Manuvu Unified Tribal Council is supported by the National Commission on Indigenous Peoples (NCIP) of Davao City and the City Government of Davao in the exercise of their right to self-governance (of their Ancestral Domain), and in partnership with various NGOs (i.e., the Philippine ICCA Consortium; Philippine Eagle Foundation; MTPP-EP; and the BUKLURAN), for their culture-based conservation work. The Tribe is represented by its leaders; Mahabok Luis Lambac Sr, and Lipatuan Joel Unad.	With the approved CADT of the Obu-Manuvu Tribe, the Tribe is already exercising its four (4) Bundle of Rights, such as (among others), "The Right to Self-Governance", as enshrined in Indigenous Peoples Rights Act (IPRA) or RA 8371. The Ancestral Domain of the Ovu-Manuvu Tribe is a private property of the said Tribe but communal in nature. Therefore, any interv ention from the Government or private sectors within the said Ancestral Domain will have to fully satisfy the mandated Social Safeguards mechanisms, as	Hon. Sara Z. San Isidro	The LGU of San Isidro is not among the current GIZ partners on the ongoing RLGM project within region 13 (Davao region). However, it has been suggested by the PWMC to be included in this ongoing sub-project of RLGM, considering its strategic location within the Ecological System (i.e., Tagum-Liboganon River Basin).	The LGU San Isidro is a land-locked area, fifth Class Municipality, situated within the headwaters of the Tagum-Liboganon River Basin. Its land area is about 15,249 ha. About 10,460 ha is Forestlands or about 68% and the rest of the area is A and D (about 4,788 ha). No area falling under Protection Forest, nor ZAPZP, with about 157 ha highly susceptibot to flooding.	The LGU of San Isidro, Davao del Norte has existing Environment and Natural Resources (ENR) Partnership Agreements (i.e., MOAs) with DENR, as follows: (a) Provision of Technical Assistance in the formulation of the Forest Land Use Plan (FLUP). The overriding objective of the MOA is "the improvement of upland resources management in the Municipality of San Isidro, Davao del Norte, through improved governance consistent with the principles and practices of transparency, accountability, and participatory decision-making". The FLUP process involves the Preparation, Review, Validation, Approval, Legitimization, and Implementation of resulting Forest Land Use Plan (FLUP). The Technical Assistance also includes the drafting of the Co-Management Agreement for the FLUP Implementation. The LGU has about 9,913-ha Forestland within the headwaters of Tagum-Liboganon River Basin and drains towards the Davao Gulf area. Portion of the LGU is covered by the Ancestral Domain of the Ata-Manobo Tribe, with CADT No. R11-TAL-0308-071, having an area of about 117,546.06 ha, along with other LGUs of Santo Tomas and Talaingod, Davao del Norte; (b) Barangay Forest Program" for Barangay San Miguel, San Isidro, Davao del Norte. The DENR-LGU Partnership, which was signed on December 15, 2013, is in pursuant to DILG Joint Memorandum Circular No. 2013-03, and it is for a period of six (6) months. Under the said DENR-LGU Partnership, the DENR provides P180,000.00 to be used for the: (1) establishment of a forest nursery, (2) production of at least 10,000 quality seedlings	The FLUP formulation follows the guidelines developed during the EcoGov Project, and is now widely used by th DENR-prescribed procedures. The Technical Assistance provided by the DENR 11 to its Partner LGUs is basically preparing their Partner LGUs for the Co-Management of Forestlands, as provided for in the Local Government Code (RA 8160), following the systems and procedures defined in the Joint DILG-DENR Memorandum Circular DAO 98-01, and the guidelines specified in DAO 2003-01. The resulting FLUP, legitimized through a Sangguniang Bayan (SB) Adoption Resolution, serves as the Management Plan for the LGU's Forestlands, which is the basic requirement for the Sighning of the Co-Management MOA.
